

American Lithium Announces Appointment of New Auditor

VANCOUVER, BRITISH COLUMBIA, December 7, 2023 – American Lithium Corp. (“American Lithium” or the “Company”) (TSX-V:[LI](#) | Nasdaq:[AMLI](#) | Frankfurt:[5LA1](#)) is pleased to announce the engagement of Davidson & Company LLP, Chartered Professional Accountants (“Davidson”), as auditor of the Company for the 2024 fiscal year. Davidson is a full-service accounting firm based in Western Canada. It is one of the largest public auditors in Canada with significant experience in the natural resource sector including engagements with numerous mining companies focused on many jurisdictions globally.

To facilitate the engagement, Ernst & Young LLP, Chartered Professional Accountants (“EY”), have resigned as auditor at the request of the Company. At the time of the resignation, there was an unresolved issue outstanding where the Company had agreed to conduct an external review of the veracity of comments made by a third-party. The Company completed this review but, at the date of its resignation, EY had not had an opportunity to perform an analysis of the review. Given timelines ahead of financial year-end reporting, the Company has appointed Davidson, and EY has been authorized to respond fully to any inquiries by Davidson concerning the above matter to assist with the transition.

In accordance with applicable securities laws, the notice of change of auditor, together with the required letters from EY and Davidson, have been reviewed by the Board of Directors of the Company and filed under the profile for the Company on SEDAR+ (www.sedarplus.ca).

About American Lithium

American Lithium is actively engaged in the development of large-scale lithium projects within mining-friendly jurisdictions throughout the Americas. The Company is currently focused on enabling the shift to the new energy paradigm through the continued development of its strategically located TLC lithium project (“TLC”) in the richly mineralized Esmeralda lithium district in Nevada, as well as continuing to advance its Falchani lithium (“Falchani”) and Macusani uranium (“Macusani”) development-stage projects in southeastern Peru. All three projects, TLC, Falchani and Macusani have been through robust preliminary economic assessments, exhibit strong significant expansion potential and enjoy strong community support. Pre-feasibility is advancing well at TLC and Falchani.

Cautionary Statement Regarding Forward Looking Information

This news release contains certain forward-looking information and forward-looking statements (collectively “forward-looking statements”) within the meaning of applicable securities legislation. All statements, other than statements of historical fact, are forward-looking statements. Forward-looking statements in this news release include, but are not limited to, statements regarding the business plans, expectations and objectives of American Lithium. Forward-looking statements are frequently identified by such words as “may”, “will”, “plan”, “expect”, “anticipate”, “estimate”, “intend”, “indicate”, “scheduled”, “target”, “goal”, “potential”, “subject”, “efforts”, “option” and similar words, or the negative connotations thereof, referring to future events and results. Forward-looking statements are based on the current opinions and expectations of management and are not, and cannot be, a guarantee of future results or events. Although American Lithium believes that the current opinions and expectations reflected in such forward-looking statements are reasonable based on information available at the time, undue reliance should not be placed on forward-looking statements since American Lithium can provide no assurance that such opinions and expectations will prove to be correct. All forward-looking statements are inherently uncertain and subject to a variety of assumptions, risks and uncertainties, including risks, uncertainties and assumptions related to: American Lithium’s ability to achieve its stated goals; which could have a material adverse impact on many aspects of American Lithium’s businesses including but not limited to: the ability to access mineral properties for indeterminate amounts of time, the health of the employees or consultants resulting in delays or diminished capacity, social or political instability in Peru which in turn could impact American Lithium’s ability to maintain the continuity of its business operating requirements, may result in the reduced availability or failures of various local administration and critical infrastructure, reduced demand for the American Lithium’s potential products, availability of materials, global travel restrictions, and the availability of insurance and the associated costs; the ongoing ability to work cooperatively with stakeholders, including but not limited to local communities and all levels of government; the potential for delays in exploration or development activities; the interpretation of drill results, the geology, grade and continuity of mineral deposits; the possibility that any future exploration, development or mining results will not be consistent with our expectations; risks that permits will not be obtained as planned or delays in obtaining permits; mining and development risks, including risks related to accidents, equipment breakdowns, labour disputes (including work stoppages, strikes and loss of personnel) or other unanticipated difficulties with or interruptions in exploration and development; risks related to commodity price and foreign exchange rate fluctuations; risks related to foreign operations; the cyclical nature of the industry in which American Lithium operates; risks related to failure to obtain adequate financing on a timely basis and on acceptable terms or delays in obtaining governmental approvals; risks related to environmental regulation and liability; political and regulatory risks associated with mining and exploration; risks related to the uncertain global economic environment and the effects upon the global market generally, any of which could continue to negatively affect global financial markets, including the trading price of American Lithium’s shares and could negatively affect American Lithium’s ability to raise capital and may also result in additional and unknown risks or liabilities to American Lithium. Other risks and uncertainties related to prospects, properties and business strategy of American Lithium are identified in the “Risk Factors” section of American Lithium’s Management’s Discussion and Analysis filed on October 16, 2023, and in recent securities filings available at www.sedarplus.ca. Actual events or results may differ materially from those projected in the forward-looking statements. American Lithium undertakes no obligation to update forward-looking statements except as required by applicable securities laws. Investors should not place undue reliance on forward-looking statements.
